# Cyber ExerCycle™

## Cyber ExerCycle is a game controller for a PC

It integrates your exercise equipment with your computer.

Simply attach a small sensor to the side of your bike and connect the controller to a USB of your PC.

Choose your favorite game and start getting fit.

Cyber ExerCycle detects pedal motion of your bike and translates them into control signals for your PC.

## Works with various exercise equipment

Stationary Exercise Bikes (upright and recumbent)

Mini Exercise Bikes (pedal exercisers)

Bicycles (trainer stand required)

Elliptical Trainers (some models)
